

CONTAMINATION CONTROL for shoes & wheels *Cannabis*

Dycem protects environments within the global **Cannabis industry**.

Our polymeric contamination control mats are proven to attract and retain up to **99.9% of floor level** and up to **75% of airborne particulates**. When installed at pedestrian and wheeled entrances to a controlled space or cleanroom, the risk of potentially harmful contaminants such as dirt, particulate matter, or microorganisms entering your critical environment is prevented. Protecting your work, products, and people is our top priority!

Supporting Your Industry with improved contamination control

SUPERIOR PERFORMANCE in attracting, collecting, and retaining particles

CUSTOMIZED SOLUTIONS tailored to meet the needs of each facility and provide optimal results

ANTIMICROBIAL PROTECTION 24/7 with BioMaster silver ion additive

EASY CLEANING routine incorporated into existing SOP's with minimal downtime

EFFICIENCY by requiring minimal training, processes, or additional time for use

SUSTAINABILITY and significant reduction in plastic waste over a 3+ year lifespan

QUALITY & COMPLIANCE commitment by meeting industry and international standards

OUR PRODUCTS
