

# CONTAMINATION CONTROL for shoes & wheels

## Electronics & Semiconductor

Dycem protects cleanrooms & critical environments within the global **Electronics** industry.

Our polymeric contamination control mats are proven to attract and retain up to **99.9% of floor-level** and up to **75% of airborne particulates**. When installed at pedestrian and wheeled entrances to a controlled space or cleanroom, the risk of potentially harmful contaminants like dust and static in your critical environment is prevented. Protecting your work, your products, and your people is our top priority!

## Supporting Your Industry

with improved contamination control

**SUPERIOR PERFORMANCE** in attracting, collecting, and retaining particles

**CUSTOMIZED SOLUTIONS** tailored to meet the needs of each facility and provide optimal results

**ESD PREVENTION** through static dissipative properties of  $10^8$  ohms

**EASY CLEANING** routine incorporated into existing SOP's with minimal downtime

**EFFICIENCY** by requiring minimal training, processes, or additional time for use

**SUSTAINABILITY** and significant reduction in plastic waste over a 3+ year lifespan

**QUALITY & COMPLIANCE** commitment by meeting industry and international standards

## OUR PRODUCTS

### Dycem® CleanZone

For pedestrian shoes & light wheeled traffic

### Dycem® WorkZone

For wheels of heavy carts, pallet jacks, & forklift traffic

## WHERE TO USE

- ✓ cGMP controlled areas
- ✓ ESD sensitive areas
- ✓ Entrances to cleanrooms
- ✓ Pedestrian gowning and airshowers
- ✓ Equipment entrance & transfer areas
- ✓ Material & product transfer areas
- ✓ In between processes or products
- ✓ Assembly & packaging areas

## SUCCESS STORIES IN YOUR INDUSTRY

“

“We invested in Dycem some five years ago to protect our critical environments i.e. cleanrooms and camera assembly...we have now built new cleanrooms and improved the cleanliness of our controlled areas. The improvement in those areas is very much down to the Dycem product.”

-SONY

“

“Since replacing peel-off mats, we have seen a noticeable improvement in static charge within the labs and surrounding areas... a much more effective method of prevention.”

-Infineon
