

CONTAMINATION CONTROL for shoes & wheels

Pharmaceutical Packaging & Distribution

Dycem protects cleanrooms & critical environments within the **Pharmaceutical Packaging & Distribution** industry across the world.

Our polymeric contamination control mats are specifically designed to capture and hold up to **99.9% of floor-level** contaminants and up to **75% of airborne particulates**. When placed at pedestrian and wheeled entrances to your packaging and distribution areas, they effectively prevent harmful contaminants like dirt, particulate matter, and microorganisms from entering critical environments. Safeguarding your products, processes, and personnel is our top priority!

Supporting Your Industry

with improved contamination control

SUPERIOR PERFORMANCE in attracting, collecting, and retaining particles

CUSTOMIZED SOLUTIONS tailored to meet the needs of each facility and provide optimal results

ANTIMICROBIAL PROTECTION 24/7 with BioMaster silver ion additive

EASY CLEANING routine incorporated into existing SOP's with minimal downtime

EFFICIENCY by requiring minimal training, processes, or additional time for use

SUSTAINABILITY and significant reduction in plastic waste over a 3+ year lifespan

QUALITY & COMPLIANCE commitment by meeting industry and international standards

up to **99%**
floor level control

OUR PRODUCTS

Dycem® CleanZone

For pedestrian shoes & light wheeled traffic

Dycem® WorkZone

For wheels of heavy carts, pallet jacks, & forklift traffic

WHERE TO USE

- ✓ Packaging Area Entry Zones
- ✓ Product Inspection Areas
- ✓ Material Staging Zones
- ✓ Critical Pathways
- ✓ Wheel Decontamination Stations
- ✓ Distribution Preparation Rooms
- ✓ Cold Storage Room Entry
- ✓ Finished Goods Storage

SUCCESS STORIES IN YOUR INDUSTRY

“

“The installation of Dycem has reduced floor contamination, and also the effort required and costs of maintaining cleanliness of the remaining production areas.”

-Takeda

“

“We have recognized that the Dycem zones work very well – confirmed by measurements made by the manufacturer’s representative – our powder remains in the zone and does not spread outside the production areas. I can only recommend the installation of Dycem zones – if you adhere to the rules for cleaning them, the effect is really noticeable.”

-Teva
