

CONTAMINATION CONTROL for shoes & wheels

Personal Care & Cosmetics

Dychem protects critical environments within the global **Personal Care & Cosmetics** industry

Our polymeric contamination control mats are proven to attract and retain up to **99.9% of floor level** and up to **75% of airborne particulates**. When installed at pedestrian and wheeled entrances to a controlled space or clean room, the risk of potentially harmful contaminants such as dirt, particulate matter, or microorganisms entering your critical environment is prevented. Protecting your work is our top priority!

Supporting Your Industry

with improved contamination control

- Hygiene transition zones
- Material & product transfer areas
- Outside communal areas
- Between production lines
- Packaging areas

SUCCESS STORIES IN YOUR INDUSTRY

“

“We are satisfied with the use of Dycem... Most of the contamination and dust are collected on the Dycem Flooring Systems, and there is less (contamination and dust) spreading on to other surfaces.”

-Nivea,
a Beiersdorf company
